PROFILE SUMMARY

A highly motivated and dedicated BCA graduate from University of Calicut, seeking for an entry-level position to leverage my skills and knowledge to upgrade myself. I am a quick learner with problem solving mindset. Currently pursuing a 3 months course on Python Fullstack Development.

TECHNICAL SKILLS

- Languages: Python, Java
- Databases : MySQL, Django
- Web Technologies : HTML, JavaScript, CSS, React (basic)
- Tools : Git, VS Code

PROJECTS

Online Quiz & Learning Portal
(A mini LMS - Learning Management System)

 - Full stack web application developed using Django, MySQL, and HTML/CSS(Bootstrap).
 - Provides a digital platform for students to access courses, learn from uploaded materials, and take quizzes, while trainers as intermediate user can manage content and track student performance.
 - Key features include user authentication, course and quiz management, automatic quiz evaluation, and a student dashboard to monitor progress. The platform supports role-based access, real-time scoring, and optional features like leaderboards, certificates, and performance analytics.

COMPASS (CAS Online Management Portal & Academic Support System)
(College Project)

 - COMPASS is a comprehensive college management system for students, teachers, and parents, designed to streamline academic administration at the University of Calicut. It goes beyond attendance tracking, offering a centralized platform for managing student progress and institutional workflows.
 - Teachers can mark attendance, create timetables, and calculate attendance percentages.
Students can view their attendance, academic progress, and upcoming exams. Parents can track their child's attendance percentage, academic performance, and fee status.
